[OCEAN WISE](#)

Join us for an exciting event focused on learning about the whales that call the North Coast home, how you can become a citizen scientist and what you can do to protect them!

Community members will have the opportunity to learn about whale behaviour, migration patterns and the importance of whale conservation efforts. You will also have the chance to participate in hands-on activities that will help them become an effective citizen scientist to help contribute to ongoing research efforts such as collecting data on whale sightings and behaviour.

Whether you're a seasoned whale enthusiast or just starting to learn about these amazing creatures, this event is the perfect opportunity to deepen your knowledge and get involved in conservation efforts. So join us and become a part of the community of citizen scientists working to protect whales and their habitats!
